There places were rulings to which it refers, have had taken at random, in all locations the effect of diminishing its revenues and increasing its operating expenses to such a degree that it cannot afford to continue its fastest and most noted train any longer, but hopes for such a change of conditions as will enable it to restore its service hereafter.

While such action will be regrette by the patrons of the road in question the explanation will not be accepted as altogether adequate by the general public. It is an open secret among railroad men that a few of the fastes limited trains on the great trunk line ads are not paying propositions. The expense of their operation and the eavy as to make such ventures de likely that the desire to escape further operation at a loss is more nearly responsible for this withdrawal than any legislation. Most of the transpor tation companies have expressed satisfaction at the relief from the rebating evil and rate legislation is general enough to cut very much fate the revenue of the passenger traffic.

Some rather remarkable assertion were made at the hearing yesterda; before one of the House committee at Washington on the Littlefield bill, which seeks to allow the jurisdiction of a state to attach to all liquors shipped in from other states. It was declared that mince pie-even the with aerial warships with a vim. 21-a total of 520. The deductions from these tests are interesting.

The Superintendent says that it ha been found that where no inspection exists about 75 per cent, of the weights and measures are false; that only one-quarter of them all gives fair value to the purchaser; that of the 75 per cent, false measures, five per cent. favors the purchaser, while 70 per cent, favors the dealer.
