FOREST FIRES RAGING IN NORTHERN COUNTIES

rious Damage Has Been Done in Adirondacks—Slight Rainfali was of Little Benefit.

Despite the alleviating effects Despite the alleviating effects of the recent rain reports from the Adi-rondacks indicate that forest fires are doing great damage in many locali-ties. The continued high winds have ties. The continued high winds have had a tendency to evaporate the usual abundance of moisture in the woods at this time of year and disastrous re-

sults have followed. In the northern part of Warren Co. at localities near Riparius and Sodom at localities near Riparlus and Sodom, large forces of mon have been called out to fight the flames, but despite their efforts the results have been disastrous. In Essex county several fires are raging also, according to re-ports from various sections. The fires so far have been confined largely to the new crowth woods and grast

to the new growth woods and grass tracts, with the result that property losses have been small. losses have been small.
Residents of the northern towns, fearing the dry weather and heavy winds, have hoped daily for rains. Word coines that blasse partially subdued by this slight ratinfall have already broken out again.
