"It's going like wildfire . . . Socony Special plus Ethyl"

THIS is the story the dealer tells. In the six weeks that Socony Special plus Ethyl has been on the market, sales have been climbing rapidly: ten . . . fifteen ... twenty ... twenty-five ... thirty per cent higher. From Maine to Long Island, from Buffalo to Boston, the report is the same: "Socony Special plus Ethyl is going like wildfire."

Here are the reasons: Socony Special always was a superior high-compression premium gasoline. Then we did the one thing we could do to make it better. We added Ethyl fluid-at no extra cost to youmaking the first high-compression gasoline plus Ethyl ever offered in these parts.

The result is just about perfection. Read some of the comments on Socony Special plus Ethyl:

"A few days ago, while on a trip through northern New York, I had a good coportunity to give Scoon's Special plan Edys's good rish. When I left home, the task was back, I filled up with your new Special. I noticed a big difference. The motor ran much more smoothly, had more power and special and a quickler pick-up. On this trip law to the special was a speed and a quickler pick-up. On this trip had nearly two gallons of Special left when I restelds home."

"It is not necessary to retard the spork on any of the hills in this section with Socony Special plus Ethyl."

"The clean condition of my spark plugs after 2,000 miles of driving is a clear in-dication of complete combustion in the cylinders."

"I have been diving one of the new Model A Fords for some time, buying my gasoline at the fair to convenient pump that would sall it to me at the fairs of the fair to convenient pump. That would sall it to me at the lowest price. In course of the convenient of the
