HINTS TO FARMERS FROM UNCLE SAM'S AGRICULTURAL DEP'T

arning Issued Against Burning Off Woodlands-How to Fight the Dandelion-Danger of Salicylic Acid-Success in Use of the Parcel Post System.

Washington, June 4.-Warnings to Washington, June 1.—Warnings to farmers against burning off wood-lands, or "logged off" lands are be-ing sent broadcast by the Depart-ment of Agriculture. It is stated that after careful and widespread ex-periments by the Forest Service, it is now meanstrated that in burning off lands the valuable "humbs" is des-troyed.

organization may come be directed in the control of the valuable "human is despective for the control of the valuable "human is despective for the control of the valuable "human is despective for the control of the valuable "human is despective for the control of the valuable "human is despective for the control of the valuable "human is despective for the control of the control
