Perfect Womanhood

The greatest women are those who demonstrate the permanence of the beautiful. The most beautiful women have certain qualities that are not unique to their personality. For example, they are often able to express themselves clearly and concisely. They have a sense of humor and are able to make others laugh. They are also good listeners and can give good advice. These qualities are not limited to women; they are also possessed by many men. But women who possess these qualities are often more admired and respected than men who possess them.
